Dear Tom,

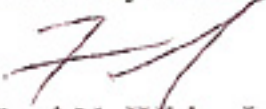

Julie and I had our first real opportunity to enjoy the cottage this past weekend. It was like entering a fresh new retreat that we were able to enjoy with friends who came to visit for the weekend. It gave us a feeling of great pride to listen to all of the compliments.

Our friends, one of which is actively involved in building, went on and on about the design, quality of materials and quality of workmanship. Thank you for your terrific expertise and patience in walking us through the process. You and your people not only were a pleasure to work with, but you made the process, which at first appeared overwhelming, to proceed in an organized fashion. We appreciate the variety of options you presented and your input in the selection of materials.

Please pass our regards on to Thomas for his expertise. He was great to work with and his carpentry skills were superior. His quickly crafted examples really made the decision process far easier when we had the visual aids.

To summarize, Julie and I are very pleased with our decision to select you as our contractor. You brought more to the table than just construction. We appreciated your input on design changes and material selection. Please feel free to use my name as a reference for any future projects and if we ever build again, I'll be in contact.

Sincerely Yours,

Fred V. White Jr.
